

# Cooling Tower Systems

Jutzi Water Technologies has solutions to protect your tower system and reduce operating costs. Greater efficiencies are achieved through proper control of scale, corrosion, deposition and microbes. Our treatment programs address these interrelated potential problems.

## Scale:

- Automatic feed/bleed equipment
- Scale inhibitors
- Water softeners

Registered to  
ISO 9001

## Corrosion:

- Corrosion inhibitors
- White rust inhibitors
- Corrosion coupon racks

## Deposition:

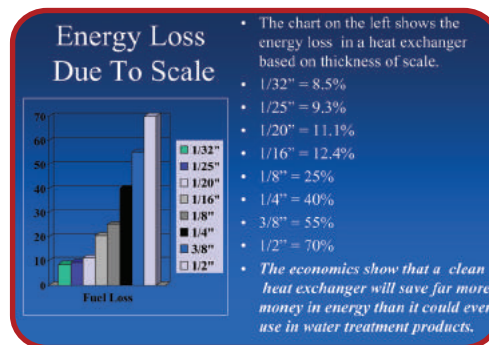

- Cleaners
- Deposition control agents
- pH controls

## Microbes:

- Bio dispersants
- Biocides
- Brominators

## Markets Served:

- Industrial
- Commercial
- Food plants
- Arenas
- Hospitals
- Apartment buildings
- Schools

## GOING GREEN!

### ENERGY

#### Whole enterprise approach for:

- Innovative allocation of resources
- Reduced electricity costs
- Efficiencies in operations

### WATER

#### Quality water inputs for:

- Reduced consumption
- Less waste water
- Measurable cost reductions

### ENVIRONMENT

#### Safer chemical compounds for:

- Enhanced work environment
- Reduced environmental impact
- Positive due diligence effects

**Mission Statement:**  
Do our best. Do what's right.  
Treat others as we'd like to be  
treated ourselves.

# Cooling Tower Systems

## Chemical Feed and Control:

- Web-based control and monitoring
- Automatic feed and bleed equipment
- Water meters
- Corrosion coupon racks
- Bacteria dip slide testing
- Test kits and reagents
- Brominators
- pH and conductivity control
- Legionella testing
